Author Index

Note: The numerals in parentheses refer to the issue number; the numerals following the colon refer to the pages within the issue.

Abrams RA, Drake CW, Segal H: Dr. Sanford C. Barnum and the invention of the rubber dam. (4):320-322

Baldwin RH: (Letter). (3):187

Bales DJ, Mahew RB: Dental electrogalvanism: Report of a unique case. (4):305-306

Banker CA, Berlocher WC, Mueller BH: Alternative methods for the management of persistent maxillary central diastema. (2):136-139

Barkmeier WW see **Cooley RL**

Beck-Coon KA see **Beck-Coon RJ**

Beck-Coon RJ, Beck-Coon KA: Dental treatment in the pregnant or nursing patient. (3):237-240

Berlocher WC see **Banker CA**

Berman LH: Intrinsic staining and hypoplastic enamel: Etiology and treatment alternatives. (6):484-488

Bernstein DA, Todd MJ: IRM as an interappointment endodontic sealing agent. (5):401-404

Block MJ, Grantham E, Leist JC, Yokeley SA: Determining continuing education needs for dentists and auxiliaries on a regional basis. (1):33-35

Bolouri A: The use of pre-border molded trays for complete dentures. (1):58-60

Bomberg TJ, Hatch RA: Impression material properties and relative costs: A comparison. (1):68-72

Bower CF see **Reinhardt RA**

Boyd WJ see **Fitch JR**

Brady WF, Martinoff JT: Patient perception of physical evaluation performed by the dental practitioner. (1):54-57, (Correction). (3):188

Diagnosed past and present systemic disease in dental patients. (6):495-499

Byrington SQ see **Eames WB**

Carlson CR: (Letter). (1):9

Carter DB, Triplett WW: The inferior alveolar injection for the left-handed dentist. (4):326-327

Cartwright JW, Todd MJ: A comparison of endodontic medications. (4):334-337

Cohen AB: Bit by byte, computers infiltrate dental practices. (5):380-381

Can MMT save teeth? GPs eye 'Keyes technique.' (3):257-259

Dentists court trouble with sketchy records, judge says. (5):384-385

GP help wanted for periodontal disease prevention. (5):384-385

Human factors vital in denture care. (5):378-379

Patients pursue smiles, so GPs offer esthetics. (5):382-383

Cohen AB see **Koehler HM**

Cohen DW: (Letter). (6):456

Connelly ME see **Powers WJ**

Cooley RL, Barkmeier WW: Techniques and devices for recovering mercury and preventing contamination. (1):36-41

Cooley RL, Barkmeier WW, Wayman BE: Sterilization and disinfection of dental burs. (6):508-512

Cooley RL, Lubow RM, Wayman BE: Treatment of pin perforations. (2):148-153

Cooley RL see **Lubow RM**

Crandell CE: (Letter). (4):282-283

Curtis BW: (Letter). (5):362

Dalmaso R: AGD's 30 years: A heritage of excellence. (5):370-371

Diehl M: Management of acquired maxillary defects in partially edentulous patients. (5):424-427

Drake CW see **Abrams RA**

Drake CW see **Grantham EV**

Eames WB, Byrington SQ, Suway NB: A comparison of eight ultrasonic cleaners. (3):242-245

Eames WB, Palmertree CO: Twelve mercury devices: An evaluation of methods of monitoring, containment, and removal of mercury. (1):42-49

Economos JP: (Letter). (4):282

Feinstone MW see **Tucker JT**

Fitch JR, Boyd WJ, McCoy RB, Pelleu GB: Amalgam repair of cast gold crown margins: A microleakage assessment. (4):328-330

Foerth D see **McLaughlin G**

Freidline CW, Porter CB: Alternative to periodontal pack. (2):159-160

Frye MC: (Letter). (4):283

Garfield RE: (Letter). (3):188

Gaskill MJ: (Letter). (1):9

Gaynor HM: Student response to computer simulation in practice management. (4):323-325

Gingell JC, Zeller GG, Whitaker GC: Potential hazards of copper band utilization: Two case reports. (6):500-501

Glassman SW: (Letter). (3):187

Gluskin MB: Recognition of the distopalatal groove: A developmental anomaly. (4):338-340

Grantham EV, Drake CW: Radiography for office-trained dental assistants: A course evaluation. (4):342-344

Grantham E see **Block MJ**

Griffiths RH: (Letter). (4):281

Gutweniger C: Preservation of attached gingiva with the exposure of unerupted teeth. (3):229-232

Hatch RA see **Bomberg TJ**

Hembree JH Jr: Microleakage of several pin-retaining devices. (5):429-431

Holman DJ: Desensitization of dentin by iontophoresis. (6):481-483

Howard WW: Editorials. (1):6, (2):94, (3):182, (4):278, (5):358, (6):452

Johnson L III: Regional nerve blocks in general dentistry. (5):414-418

Karambelas KG: Anxiety level is critical in pain control, clinician says. (5):386-389

Cooperation the key during Terkla's year as president. (5):372-373

Medical emergency: Crisis calls for staff cooperation. (5):386-387

TMJ device helps athletes reach their potential. (5):380-381

Katz BM: (Letter). (6):457

Koehler HM, Cohen AB: Participation courses: Practice to be perfect. (5):378-379

Korbich M see **Newton JB**

Korneluk GN: Dental assistants: Finding the right one for your practice. (3):193-194

Dentists as partners: Enjoying the benefits of togetherness. (1):12-13

File into a more cost-effective office. (5):433-434

Sharing responsibility: Use your power of delegation. (4):286-287

Telephone techniques: Making the most of your "office hotline." (2):104-105

The dental office manual: The rules of the game. (6):458-459

Kreisberg MK: Alternative view of the bruxism. (2):121-123

Kuerer B: Hemisection in the management of the fractured molar. (4):312-313

Ladenheim S, Renner RP: An overview of tissue bars. (5):406-413

Lambert RL, Scrabek JG, Robinson FB: A study of TMS pin retention values. (2):145-146

Leinfelder KF: Microfilled composite resins. (6):473-476

Leist JC see **Block MJ**

Lerner MH: (Letter). (4):282

Leung VFS: The open beak extraction technique. (1):51-52

Levine BC, Sadowsky D: Management

of an avulsed central incisor: An unusual approach. (1):62-63
Lorio GP: Effects of oral contraceptives on the oral structure: A review. (2):140-144
Lorton L: (Letter). (5):361

Subject Index

Note: The numerals in parentheses refer to the issue number; the numerals following the colon refer to the pages within the issue.

Abutments, dental
The immediate replacement of a partial denture abutment tooth. Powers WJ et al. (3):234-235
Academy of General Dentistry
Directory. (5):447
Honorary Fellow. (2):163
Knab memorial lecture. (5):384-385
Academy of General Dentistry, Annual Meeting, 1980
(Letter). Robbins AH. (1):9
Academy of General Dentistry, Annual Meeting, 1981
Honorary Fellow. (5):390-391
Honorary Members. (5):372-373
Humanitarian Award. (5):372-373
Program. (3):Insert
Review. (5):370-373
Academy of General Dentistry, Fellowship
Turning a profit with FAGD. (Editorial). Howard WW. (4):278
Academy of General Dentistry, journal
(Letter). Carlson CR. (1):9
(Letter). Mills LF. (3):188
Adhesion
Factors that affect the adhesion of composite to enamel.
Williams VD. (6):477-480
Advertising
Demand for dental care: If we shun advertising, will the crisis go away? (Editorial). Howard WW. (3):182
Increasing demand for dental care: AGD advertising pays off. Millenson LJ. (3):206-223
(Letter). Griffiths RH. (4):281
(Letter). Lerner MH. (4):281-282
(Letter). Pileggi PG. (4):282
Anesthesia, dental
Cleft palate patients and local anesthesia. McKinstry RE. (5):420-422
Regional nerve blocks in general dentistry. Johnson L III. (5):414-418
The mental foramen injection. Pampush TE. (6):506-507
Anxiety
Anxiety level is critical in pain control, clinician says. Karambelas KG. (5):386-389
Aspiration
Management of aspirated and ingested foreign bodies. Schultz HH. (4):315-319
Attitude, patient
Patient perception of physical evaluation performed by the dental practi-

tioner. Brady WF et al. (1):54-57
Barnum, SC
Dr. Sanford C. Barnum and the invention of the rubber dam. Abrams RA et al. (4):320-322
Bonding, dental
Composite bonding of etched metal bridges. McLaughlin G et al. (2):132-134
Bone marrow
Radiolucent region in the mandible. Pullon PA et al. (4):301,303
Bruxism
Alternative view of the bruxism phenomenon. Kreisberg MK. (2):121-123
Chondrosarcoma
Radiolucency in the mandible. (5):395,398
Cleft palate
Cleft palate patients and local anesthesia. McKinstry RE. (5):420-422
Coady, JC
Honorary Fellow. (2):163
Computer-assisted instruction
Student response to computer simulation in practice management. Gaynor HM. (4):323-325
Computers
Bit by byte, computers infiltrate dental practices. Cohen AB. (5):380-381
Contraceptives, oral
Effect of oral contraceptives on the oral structures: A review. Lorio GP. (2):140-144
Crowns
Amalgam repair of cast gold crown margins: A microleakage assessment. Fitch DR. (4):328-330
Dental alloys
Selecting a low-gold Type III casting alloy. Oliva RA et al. (3):252-255
Dental amalgam
Amalgam repair of cast gold crown margins: A microleakage assessment. Fitch DR et al. (4):328-330
Dental assistants
Dental assistants: Finding the right one for your practice. Korneluk GN. (3):193-194
Dental assisting: Whose bread and butter is it really? (Editorial). Howard WW. (1):6
(Letter). Phillips RW. (5):362
Dental assistants, training
Radiography for office-trained dental assistants: A course evaluation. Grantham EV et al. (4):342-344
Dental care
Demand for dental care: If we shun advertising, will the crisis go away? (Editorial). Howard WW. (3):182
Dental treatment in the pregnant or nursing patient. Beck-Coon RJ et al. (3):237-240
(Letter). Katz BM. (6):457
Dental care plans
(Letter). Press BH. (5):361
Dental caries, therapy
Retention of "terminally involved" teeth with deep subgingival caries: Two solutions. Reinhardt RA et al. (2):154-157
Dental casting technique
Selecting a low-gold Type III casting alloy. Oliva RA et al. (3):252-255
Dental cement
IRM as an interappointment endodontic sealing agent. Bernstein DA et al. (5):401-404
Microleakage of several pin-retaining devices. Hembree JH Jr. (5):429-431
Dental enamel
Factors that affect the adhesion of composite to enamel. Williams VD. (6):477-480
Intrinsic staining and hypoplastic enamel: Etiology and treatment alternatives. Berman LH. (6):484-488
Dental equipment
A comparison of eight ultrasonic cleaners. Eames WB et al. (3):242-245
Dental fistula
Recurrent growth on chin. Pullon PA et al. (3):198,203
Dental hygienist
Meeting. (Letter). Kuttler SL. (2):97
Practice. (Letter). Choby WA. (2):97
Dental impression technique
An improved split-tray impression technique for immediate complete dentures. Newton JB et al. (4):332-333
Dental instruments
An improved split-tray impression technique for immediate complete dentures. Newton JB et al. (4):332-333
Sharp hand instruments: A prerequisite to conservative cavity preparation. Robbins AH. (6):502-505
The use of pre-border molded trays for complete dentures. Bolouri A. (1):58-60
Dental materials
Impression material properties and relative costs: A comparison. Bomberg TJ et al. (1):68-72
Dental occlusion
TMJ device helps athletes reach their potential. Karambelas KG. (5):380-381
Dental office
Techniques and devices for recovering mercury and preventing contamination. Cooley RL et al. (1):36-41
Twelve dental mercury devices: An evaluation of methods of monitoring, containment, and removal of mercury. Eames WB et al. (1):42-49
Dental pins
A study of TMS pin retention valves. Lambert RL et al. (2):145-146
Microleakage of several pin-retaining devices. Hembree JH Jr. (5):429-431
Treatment of pin perforations. Cooley RL et al. (2):148-153
Dental prosthesis design
Management of acquired maxillary defects in partially edentulous patients. Diehl M. (5):424-427
Dental records
Dentists court trouble with sketchy records, judge says. Cohen AB. (5):384-385
Dental restoration, failure
Microleakage of several pin-retaining devices. Hembree JH Jr. (5):429-431
Treatment of pin perforations. Cooley RL et al. (2):148-153
Dental restoration, permanent
A study of TMS pin retention values. Lambert RL et al. (2):145-146
Composite bonding of etched metal restorations. McLaughlin G et al. (2):132-134
Retention of "terminally involved" teeth with deep subgingival caries: Two solutions. Reinhardt RA et al. (2):154-157
Dental restoration, repair
Amalgam repair of cast gold crown margins: A microleakage assessment. Fitch DR et al. (4):328-330
Dental restorations
Potential hazards of copper band utilization: Two case reports. Gingell JC et al. (6):500-501
Dentin
Desensitization of dentin by iontophoresis. Holman DJ. (6):481-483
Dentin bonding
Process chemically bonds dentin, plastic restorations. (4):296
Dentistry, operative
A single solution mixture of fluorides for treatment of cavity preparations. Malloy CM et al. (3):225-227
Denture, complete
Human factors vital in denture care. Cohen AB. (5):378-379
The use of pre-border molded trays for complete dentures. Bolouri A. (1):58-60
Denture, complete, immediate
An improved split-cast impression technique for immediate complete dentures. Newton JB. (4):322-323
Denture, partial, fixed
Metal conservation in posterior porcelain veneer post pontics. Raibley PR et al. (6):489-493
Some periodontal considerations in fixed prosthodontics. Tjan AHL. (3):246-250
(Letter). Schweitzer D. (6):457
Denture, partial, removable

An overview of tissue bars. Ladenheim S et al. (5):406-413
Management of acquired maxillary defects in partially edentulous patients. Diehl M. (5):424-427
The immediate replacement of a partial denture abutment tooth. Powers WJ et al. (3):234-235
Denture, precision attachment
An overview of tissue bars. Ladenheim S et al. (5):406-413
Diastema
Alternative methods for the management of persistent maxillary central diastema. Barker CA et al. (2):136-139
Donnell HE Jr.
Honorary Member. (5):373
Education, dental
Student response to computer simulation in practice management. Gaynor HM. (4):323-325
Education, dental, continuing
AGD audio tape series. (Editorial). Howard WW. (5):358
Determining continuing education needs for dentists and auxiliaries on a regional basis. Block MJ et al. (1):33-35
No more living prophets . . . (Editorial). Howard WW. (2):94
Participation courses: Practice to be perfect. Koehler HM et al. (5):378-379
Education, dental auxiliary, continuing
Determining continuing education needs for dentists and dental auxiliaries on a regional basis. Block MJ et al. (1):33-35
Electrogalvanism, intraoral
Dental electrogalvanism: Report of a unique case. Bales DJ et al. (4):305-306
Emergencies
Medical emergency: Crisis calls for staff cooperation. Karambelas KG. (5):386-387
Endodontics
A comparison of endodontic medications. Cartwright JW et al. (4):334-337
Endodontics, failure in treatment
(Letter). Weiner AL. (1):9
Environmental exposure
Techniques and devices for recovering mercury and preventing contamination. Cooley RL et al. (1):36-41
Twelve dental mercury devices: An evaluation of methods of monitoring, containment, and removal of mercury. Eames WB et al. (1):42-49
Esthetics, dental
Patients pursue smiles, so GPs offer esthetics. Cohen AB. (5):382-383
Extraction, dental
The open beak extraction technique. Leung VFS. (1):51-52
Fibroma, peripheral
Raised lesion on maxillary gingiva. Pullon PA et al. (1):28,31
Fluorides, topical
A single solution mixture of fluorides for treatment of cavity preparations. Malloy CM et al. (3):225-227
Foreign body
Management of aspirated and ingested foreign bodies. Schultz HH. (4):315-319
Gingivitis
Effects of oral contraceptive agents on the oral structures: A review. Lorio GP. (2):140-144
Gingivoplasty
Preservation of attached gingiva with the exposure of unerupted teeth. Gutweniger C. (3):229-232
(Letter). Cohen DW. (6):456
Gold alloys
Selecting a low-gold Type III casting alloy. Oliva RA et al. (3):252-255
Granuloma, central giant cell
Radiolucent region in the mandible. Miller AS et al. (2):116,119
Handedness see Laterality
Health services needs and demand
Increasing demand for dental care: AGD advertising pays off. Millenson LJ. (3):206-223
Hepatitis B
Treatment of the chronic active hepatitis B patient in dental practice: A case study. (2):124-127
History, dental
Dr. Sanford C. Barnum and the invention of the rubber dam. Abrams RA et al. (4):320-322
Hyperparathyroidism
Radiolucent region in the mandible. Miller AS et al. (2):116,119
Injection techniques
The inferior alveolar injection for the left-handed dentist. Carter DB et al. (4):326-327
The mental foramen injection. Pampush TE. (6):506-507
Insurance, dental
(Letter). Baldwin RH. (3):187
(Letter). Economos JP. (4):282
(Letter). Glassman SW. (3):187
(Letter). Press BH. (5):361
Insurance, health, reimbursement
(Letter). Press BH. (5):361
Insurance, medical
(Letter). Press BH. (5):361
Iontophoresis
Desensitization of dentin by iontophoresis: A review. Holman DJ. (6):481-483
Keyes technique
Can MMT save teeth? GPs eye 'Keyes technique.' Cohen AB. (3):257-259
Laterality
The inferior alveolar injection for the left-handed dentist. Carter DB. (4):326-327
Licensure
(Letter). Richardson AC. (1):9
Malpractice, dental
Dentists court trouble with sketchy records, judge says. Cohen AB. (5):384-385
Mandibular orthopedic repositioning appliance (MORA)
(Letter). McGurk EJ. (6):452-454
Mathis BJ
Humanitarian Award. (5):372
Mercury
Techniques and devices for recovering mercury and preventing contamination. Cooley RL et al. (1):36-41
Twelve dental mercury devices: An evaluation of methods of monitoring, containment, and removal of mercury. Eames WB et al. (1):42-49
Myoblastoma, granular cell
Nodular growth on the tongue. Pullon PA et al. (2):116,119
Nerve block
Cleft palate patients and local anesthesia. McKinstry RE. (5):420-422
Regional nerve blocks in general dentistry. Johnson L III. (5):414-418
Neurofibromatosis
Nodular and pigmented skin lesions. Miller AS et al. (5):394, 398
Odontogenic cysts
The solitary odontogenic keratocyst: An incidental finding in periodontal therapy. Zingale JA et al. (4):308-311
Office management, dental
Dental assistants: Finding the right one for your practice. Korneluk GN. (3):193-194
Orthodontic appliances
Alternative methods for the management of persistent maxillary central diastema. Barker CA et al. (2):136-139
The space maintainer: Case reports of misuse and failures. Thornton JB. (1):64-67
Orthodontic appliances, removable
Alternative methods for the management of persistent maxillary central diastema. Barker CA et al. (2):136-139
Orthodontics, corrective
Alternative methods for the management of persistent maxillary central diastema. Barker CA et al. (2):136-139
Osteosarcoma
Cystic lesion of the mandible. Pullon PA et al. (6):469,472
Pain control
Anxiety level is critical in pain control, clinician says. (5):386-389
Patient, dental
Patient perception of physical evalua-

tion performed by the dental practitioner. Brady WF et al. (1):54-57
Patient management
Diagnosed past and present systemic disease in dental patients. Brady WF et al. (6):495-499
Periodontal disease, etiology
Co-destructive factors in periodontal disease: A case report. Lubow RM et al. (2):128-130
Periodontal disease, prevention
GP help wanted for periodontal disease prevention. Cohen AB (5):384-385
Periodontal dressings
Alternative to periodontal packs. Freidline CW et al. (2):159-160
Periodontics
Can MMT save teeth? GPs eye 'Keyes technique.' Cohen AB (3):257-259
Some periodontal consideration in fixed prosthodontics. Tjan AHL. (3):246-250
Physical examination
Diagnosed past and present systemic disease in dental patients. Brady WF et al. (6):495-499
Patient perception of physical evaluation performed by the dental practitioner. Brady WF et al. (1):54-57
Porcelain staining
(Letter). Gaskill MJ. (1):9
Practice management, dental
Dentists as partners: Enjoying the benefits of togetherness. Korneluk GN. (1):12-13
Sharing responsibility: Use your power of delegation. Korneluk GN. (4):286-287
Student response to computer simulation in practice management. Gaynor HM. (4):323-325
Telephone techniques: Making the most of your "office hotline." Korneluk GN. (2):104-105
The dental office manual: The rules of the game. Korneluk GN. (6):458-459
Practice organization, dental
Dentists as partners: Enjoying the benefits of togetherness. Korneluk GN. (1):12-13
Prenatal care
Dental treatment in the pregnant or nursing patient. Beck-Coons RJ et al. (3):237-240
Preventive dentistry
GP help wanted for periodontal disease prevention. Cohen AB. (5):384-385
Product information
Adhesive. (5):438
Amalgam condenser tips. (6):524
Amalgam packer. (3):261
Articulator connectors. (6):524
Cement, composite. (6):523
Cement, composite luting. (5):437
Cotton roll holder. (6):523
Curing vessel. (6):522
Dental microscope. (4):348
Diamond bur. (1):74
Drill, root. (2):167
File pockets. (6):522
Gold filter. (6):522
Handpiece, air-driven. (6):522
Implant, bone grafting. (5):437
Infant feeder. (2):166
Lead apron with thyroid collar. (5):438
Mercury collector. (1):74
Muscle stimulator. (1):75
Post and core system. (4):348
Prophylaxis paste. (1):74, (2):167
Radiograph viewer. (3):261
Recorder, mandibular motion. (4):348
Restorative material, light-activated. (5):437
Retraction cord, braided. (1):75
Retraction cord-packing instrument. (5):437
Saliva substitute. (5):438, (6):524
Scaler, ultrasonic. (6):523
Scalpel, disposable. (6):522
Sharpener stabilizer. (1):74
Sonicator. (4):349
Stone trimmer. (4):349
Sutures. (3):261
Toothbrush, infant. (2):166
Toothpaste. (5):438
Ultrasound device. (4):349
Vacuum filter. (2):166
Water conditioner. (4):349
Prosthesis
Management of acquired maxillary defects in partially edentulous patients. Diehl M. (5):424-427
Prosthodontics
Some periodontal considerations in fixed prosthodontics. Tjan AHL. (3):246-250
Puerperium
Dental treatment in the pregnant or nursing patient. Beck-Coons RJ et al. (3):237-240
Radiography, dental
Management of aspirated and ingested foreign bodies. Schultz HH. (4):315-319
Radiolucent region in the mandible. Pullon AS et al. (4):301,303
The solitary odontogenic keratocyst: An incidental finding in periodontal therapy. Zingale JA et al. (4):308-311
Record management
File into a more cost-effective office. Korneluk GN. (5):433-434
Resins, dental
Microfilled composite resins. Leinfelder KF. (6):473-476
Root canal therapy
A comparison of endodontic medications. Cartwright JW et al. (4):334-337
Rubber dam
Dr. Sanford C. Barnum and the invention of the rubber dam. Abrams RA et al. (4):320-322
Salivary duct calculi
Radiopaque mass within the mandible. Miller AS et al. (3):201,203
Salivary gland neoplasms
Mass on the maxillary gingiva. Miller AS et al. (4):300,303
Scleroderma
Stiffening of the skin. Pullon PA et al. (1):28,31
Self-assessment quiz
(1):21, (2):109, (Letter). (3):187, (4):288, (6):461
Sialometaplasia, necrotizing
Ulcers on the palate. Miller AS et al. (6):468,472
Sonication
A comparison of eight ultrasonic cleaners. Eames WB et al. (3):242-245
Statistics
(Letter). Lorton L. (5):361
(Response to letter). Pollack BF. (5):361-362
Sterilizing agents
Sterilization and disinfection of dental burs. Cooley RL et al. (6):508-512
Sterilization techniques
Sterilization and disinfection of dental burs. Cooley RL et al. (6):508-512
Temporomandibular joint
(Letter). Frye MC. (4):283
Tooth abnormalities
Recognition of the distopalatal groove: A developmental anomaly. Gluskin MB. (4):338-340
Tooth fractures
Hemisection in the management of the fractured molar. Kuerer B. (4):312-313
Tooth numbering systems
(Letter). Crandell CE. (4):282-283
Tooth reimplantation
Management of an avulsed central incisor: An unusual approach. Levine BC et al. (1):62-63
Tooth staining
Intrinsic staining and hypoplastic enamel: Etiology and treatment alternatives. Berman LH. (6):484-488
Tooth, unerupted
Preservation of attached gingiva with the exposure of unerupted teeth. Gutweniger C. (3):229-232
Treatment planning, dental
(Editorial). Howard WW. (6):452
Washington Outlook
Tucker TJ et al. (1):10, (2):102, (3):190, (4):285, (5):386
Watkins FS
Honorary Member. (5):373
Xerostomia
Treatment. (Letter). Tarr EJ. (5):364
